the driver's choice

## Platinum Plus Protection

The following components are covered against Mechanical Breakdown.  
Please note that parts not listed are specifically excluded.

### ENGINE

All components contained within the cylinder block and head including pistons, rings, crankshaft, big end bearings, manifolds, rocker assembly, timing chains, timing gears, distributor drive. Excluding Dual Mass Flywheel.

### TURBO UNIT

All components including inlet and exhaust turbine shafts, bearings, bushes, wastegate devices. Turbo cover ceases at 7 years or 80,000 miles whichever comes sooner.

### GEARBOX

All components contained within either manual or automatic transmissions including gears, bearings, clutches.

### CLUTCH

All components including clutch plate, clutch cover, thrust bearing and or release bearing. Limited to one clutch repair during the warranty duration.

### DIFFERENTIAL

All components including gears, pinions, bearings, shafts.

### DRIVE SHAFTS

All components including propshaft, drive shafts, C.V. joints, couplings. brakes – All components including servo units, cylinders, valves.

### STEERING

All components on steering systems including power steering units, rams, pumps, reservoirs, steering box.

### SUSPENSION

All components including control arms, bushings, ball joints, pins.

### BEARINGS

All components including wheel bearings, seals, hubs, flanges, where mechanical breakdown has occurred causing sudden stoppage of their function. stoppage of their function.

### COOLING SYSTEM

All components including radiator (excluding external damage), matrix, water pump, head gasket, thermostat.

### VENTILATION

All components including heater assembly, vents, tubes, controls, E.C.U. All components including solid state control units, triggering units, distributor, coil.

### ELECTRICS

All components including motors, solenoids, relays, alternator, starter motor, switches, computers.

### BRAKING SYSTEM

All components excluding brake discs and brake pads.

### FUEL SYSTEM

All components including fuel pump, carburettor, sender units, gauges, air flow meters, accumulator fuel distributor, regulators.

### AIR CONDITIONING

All components including compressors, pumps, reservoirs.

### LOCKS

All components including regulators, handles, locks, catches (excluding accidental damage).

### SEALS

All major oil seals and gaskets.

### CASINGS

Casings are covered if they have been damaged by any of the listed parts.
